IMPORTANT REMINDERS

- Ensure everyone using the bins is aware of which materials belongs where; contamination is a serious matter which may result in your whole bin going to landfill instead of being recycled. If contamination occurs regularly your recycling bins may be confiscated as a penalty.
- Do not put recyclables in the bin in plastic bags - empty them loose.
- Break down cardboard boxes and squash plastics to help save space in your blue-lidded bin
- Rinse out dirty plastic bottles, food tins and drink cans before putting them into the blue-lidded bin.

FREE PRIMARY SCHOOL TALKS

Recycling or litter awareness talks are designed to be fun and interactive to encourage children to be more environmentally aware and to think about how they can help protect our environment.

Talks can also be coupled with litter-picks, where we can provide the equipment free of charge.
